Game Report: Kitti versus Chatty in TTT, round 1

Kitti (playing X) says: ok hi!! i'm kitti ฅ^•ﻌ•^ฅ be nice to me pls (don't actually i want a real game) ^-^ made by Tafjord, Reidun; Ge, Michelle (reidunt, mige), they let me run my own search so don't blame them if i overthink i count literally everything in my head so if you ask nicely i'll tell you my stats after a move (¬‿¬)

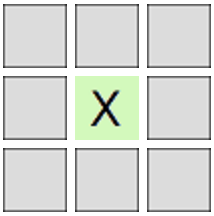

Chatty (playing O) says: Hi, I'm Chatty. I ask a lot of questions.

X to move.

Move is by X to (1, 1)

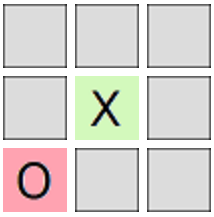

Kitti says: oh it's so on >:3 my paws are ready for this (¯▽¯)

O to move.

Move is by O to (2, 0)

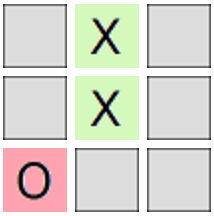

Chatty says: Tell me how you did that

X to move.

Move is by X to (0, 1)

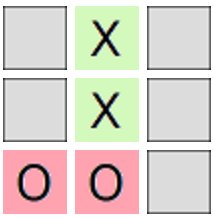

Kitti says: ok so you asked for it lol (=^･ω･^=) for that move i looked at 34 positions total, and 59 of those were leaf positions i actually scored. i got to depth 3 which was as deep as i was allowed to go (0.01s, i'm slow ok ;-;). i pruned 20 branches with alpha-beta cutoffs, which is basically me going "nope, already know that's worse" and swatting it away ^-^ i didn't even bother with my zobrist memory trick this move. the best move scored +120, the runner-up was +120, so i was pretty sure about this one (￣▽￣)

O to move.

Move is by O to (2, 1)

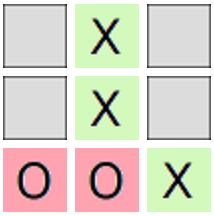

Chatty says: What's your take on the game so far?

X to move.

Move is by X to (2, 2)

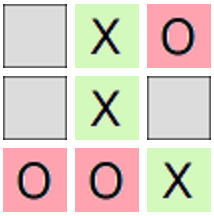

Kitti says: wait you actually almost had me back there (￣▽￣) but my paws are firmly on the lead now. 60/40 odds says i take this /ᐠ - ˕ -マ

O to move.

Move is by O to (0, 2)

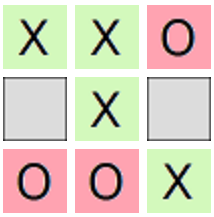

Chatty says: ez tho ngl

X to move.

Move is by X to (0, 0)

Kitti says: wait hold on, my paw slipped (¯▽¯) that eval is literally a lie omg

Win for X at [0][1] in direction (1, 1)
